Senior Product Engineer

The Riders:

- Dillon 'Big Dill' Smith (Lead Rider)
- Dylan 'Kentucky Kid' Yelton (Amateur Rider)
- Andrew 'Hooligan' Perry (Amateur Rider)

The Machines:

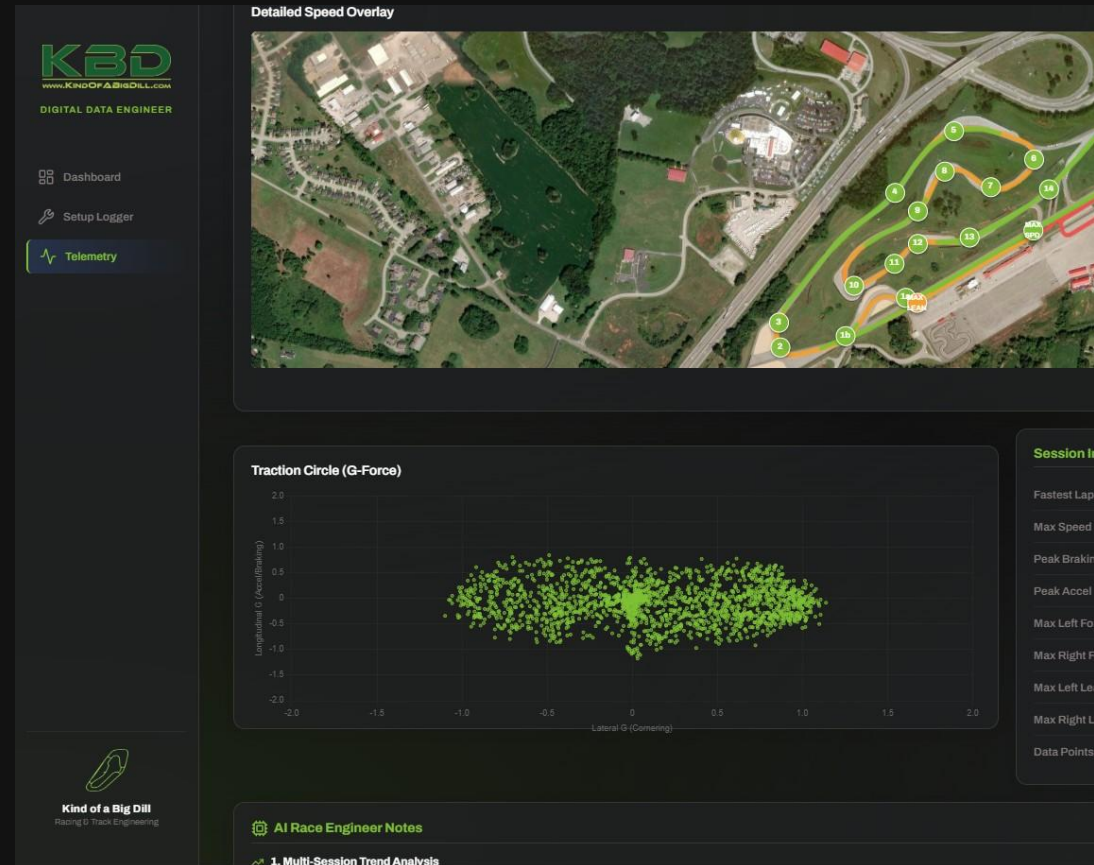

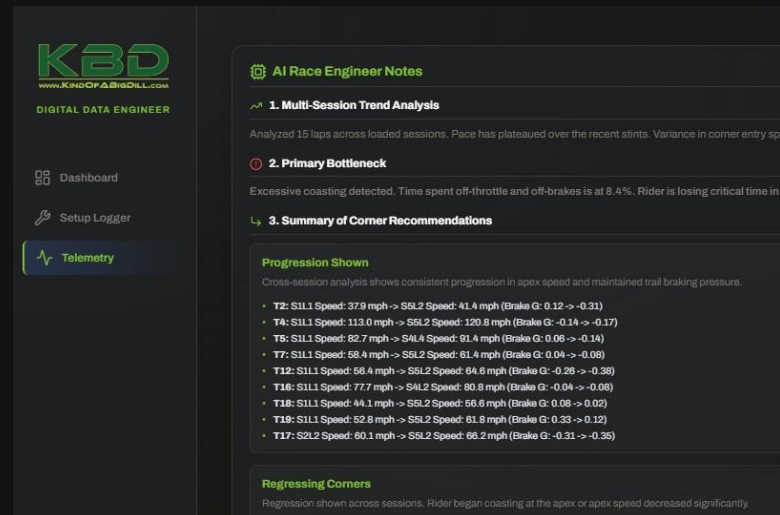

Premium 2021 Ducati Panigale V2 (955cc twin)

ENGINEERING MEETS TELEMETRY

The Data-Driven Competitive Edge

- Applying rigorous product engineering principles directly to racetrack performance.
- Consistently running an elite, competitive 2:00 - 2:02 amateur pace at NCM Motorsports Park.
- Tracking precise lap-telemetry using custom-integrated RaceBox GPS hardware.
- Processing raw data through our custom-developed 'KBD Track Engineer App' to optimize lines.

PODIUM PERFORMANCE & IMPACT

- Over 15 amateur podium finishes across three competitive race organizations.
- Growing brand presence with thousands of active social media supporters.
- Highly visible paddock presence at N2 Track Days, Precision Trackdays, and Fast Line Track Days.
- Dedicated off-season indoor kart track training and racing aboard a 50CC CRF mini-bike.

Current Partners:

Official Technical Sponsor: RaceBox Pro

PARTNER WITH US

Title Sponsor

Exclusive motorcycle livery branding, premier apparel placement, dedicated social media campaigns, and title paddock-banner display.

Associate Sponsor

Secondary livery branding, apparel logos, and consistent social media mentions.

Product Sponsor

Paddock equipment/apparel showcases, paddock-social-hour product sampling, and logo placement.
